

## EcoIntense achieves positive year-end result

### HSE software provider reports strong growth

Berlin, February 24, 2016 – The software provider EcoIntense registers a positive year-end result for 2015. In the fourth quarter of last year the company managed to increase its total order value by 80 percent as compared to the third quarter of last year. New customers include small, medium-sized and big corporations mainly from automotive, metal and food industries, as well as utility, disposal and recycling companies. ‘The number of new customers is continuing to grow in the beginning of 2016 and we expect this positive trend to go on throughout the whole year’, says CEO Markus Becker.

In addition, staff numbers have increased considerably in the last twelve months, so that now EcoIntense has approximately 70 employees. The team develops EcoWebDesk, the web-based software for health, safety and environmental management (HSE) as well as sustainability management, at the company headquarters in Berlin. In 2015 EcoIntense experienced an increased demand for the flexible software solution in its convenient rental version Software as a Service, short SaaS. In the annual survey customers confirmed again that EcoWebDesk has a well-structured user interface and is easy to use. Due to the growing international implementation EcoIntense continuously expands the language concept of the software. In addition to German, English, Chinese, Spanish, Portuguese and Czech further user interface languages will become available in 2016.

*EcoWebDesk® is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany) as well as in Houston, Texas (USA).*
