EcoIntense launches new partnerships in Switzerland

The Berlin-based software company has joined forces with Geelhaarconsulting and Neosys

Berlin, December 13, 2017 – EcoIntense, a Berlin-based software developer, has announced new collaborations with the Swiss consulting companies geelhaarconsulting GmbH and Neosys AG.

EcoIntense is the publisher of EcoWebDesk, a leading software solution for occupational health and safety, environmental management and sustainability. Users of the web-based software will now have direct access to the expertise of both Swiss companies. These additions make EcoWebDesk a more practical and robust solution for clients looking to fundamentally improve their compliance.

Geelhaarconsulting is an independent consulting firm that focuses on strategic and organizational development, with a special emphasis on sustainability. Headquartered in Bern, the company caters mostly to Swiss clients in the private and public sector. Geelhaarconsulting will assume responsibility for EcoWebDesk sales within Switzerland and will in future support new customers in setting up the software.

Neosys AG offers a range of services in environmental protection, green tech, security, risk management, social responsibility, management systems, and legal compliance. The company combines technical prowess with a deep understanding of management issues. They work with companies, government departments, and various organizations, both in Switzerland and around the world. Headquartered in Gerlafingen, Neosys has additional offices in Bern and Epalinges. They will assume responsibility for advising EcoWebDesk customers on topics such as occupational health and safety, environmental protection, and legal compliance.

EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany), Austria and Texas, USA.
